15. Fold the top down.

16. Unfold the top and sides.

17. Like before, cut straight down the middle of the top layer, but stopping at the crease. Be careful not to cut anything else below the layer.

18. Fold the flaps up like before.

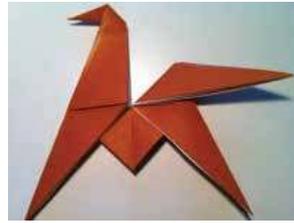

19. Fold the flaps along the crease to the center.

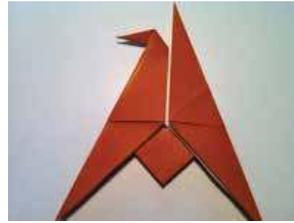

20. Rotate upside down.

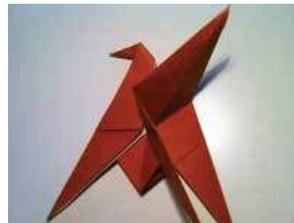

21. Now we'll create the head with an inside reverse fold. Open the left tip a little so you can bend a small portion of it down, then bend the tip in and crease the sides.

22. Fold the tail down as shown.

23. Unfold the tail.

24. Inside reverse fold the tail. To do this, open the tail and fold down at the crease, then crease together.

25. Finish. Good Job!
